NC CCR&R STATEWIDE FCC PROJECT'S FAMILY CHILD CARE INNOVATIVE GRANT

Family Child Care (FCC) Innovative Grants provide funding to support creative and effective solutions to challenges faced by family child care providers and the families they serve. These grants focus on improving access to quality care, enhancing the financial stability of FCC businesses, and addressing specific needs of the community, such as serving infants and toddlers or children with special needs.

With a goal to not only increase family child care availability but also enhanced business practices, this round of grant funds are available to provide support to those establishing new family child care businesses. This competitive grant opportunity will be available to those meeting identified criteria to support start-up costs associated with establishing a new licensed family child care facility; or costs associated with changing from a family child care home to a center in a residence (CIR).
